

The Greater Kitchener Waterloo Chamber of Commerce Health Care Resources Council continues to work to retain and recruit family physicians.

At this time we are not aware of any family physicians taking on new patients in Kitchener-Waterloo-Woolwich. There are however, a number of physicians in Guelph. If this is an option for you, please use this link <http://www.guelph.ca/living.cfm?subCatID=2063&smocid=2636> to view the list of practices in Guelph.

We also recommend that you contact HealthCareConnect at 1-800-445-1822 or visit www.ontario.ca/healthcareconnect to register for assistance in finding a family physician in our community. You will be referred to a family doctor or nurse practitioner once one is found. Priority will be given to individuals with greater health care needs.

You are welcome to visit our website again within three to six months to enquire if there are any new physicians taking on patients.
